DRIA INFRASTRUCTURE SYSTEMS: CONFIGURATION SPECIFICATION MATRIX

UNIFIED ADHESIVES SYSTEM CONDUIT INTERFACE | EXTERNAL CUSTOMER EVALUATION | VERSION 4.0

Issuing parent authority	DRIA Home Builders (Pty) Ltd
Customer reference	83253 — Adhesives
Declared scope	5 adhesive categories for procurement classification and integration evaluation

I. PLATFORM INTEROPERABILITY & SYSTEM RUNTIME DEPENDENCIES

This evaluation matrix presents a category-level adhesive data asset for construction procurement, material classification, and assessment of potential enterprise data-integration workflows. Compatibility with a recipient's ERP, procurement, or construction systems must be verified against its actual schemas and business rules.

II. QUANTITATIVE SYSTEM MATRIX

Declared category count	5 adhesive categories
Portfolio scope	Complete five-category adhesive portfolio

STATED COMPLETE PORTFOLIO VALUE	**$825,000.00 USD**

III. PROCUREMENT PATH

This document supports corporate evaluation and procurement enquiry. It is not a purchase order, executed licence, or binding commitment to deliver. Any transaction is subject to scope confirmation, applicable third-party rights, corporate procurement approvals, and mutually agreed written terms.

IV. THIRD-PARTY RIGHTS AND LIMITATIONS

Third-party names, products, catalogs, and protected materials remain subject to their respective owners' rights. Inclusion does not imply sponsorship, endorsement, certification, or affiliation. The stated fee concerns the DRIA portfolio described above and does not transfer ownership of third-party intellectual property.
